

# Amazing Message Plant

## *How to Grow*

- 1** Remove Saucer from top of pot and place under pot.
- 2** Pour 4-6 oz. of water into pot. Rewater every 3 to 4 days with 2-4 oz. of water or as needed to keep the soil moist.
- 3** Place pot in sunny indoor location at room temperature (65°-85°F or 18°-30°C)
- 4** If placed in a sunny area, the seed will germinate in approximately 7-14 days & your surprise message will appear.
- 5** For additional support: Connect a string from the pot to the ceiling for the plant to climb, or place a stake in the plant and secure it with ties as the plant grows.
- 6** To continue growing your Amazing Message Plant, you may transplant into a larger pot so your plant has more room to grow.
- 7** The Amazing Message Plant may continue to grow for as long as six months if directions are followed.

# What will the message be?

The Amazing Message Plant blossoms into a flower with a secret message. As the vine grows the secret message appears right on the plant!

Warning: Not for consumption purposes. Do not take internally.
